

# System Features Overview

TRIS Advisory Board Meeting, June 26, 2009

# Project Goals

- Data structures support Youth Development Model
- Support Multidisciplinary Team Approach
- Support Research and Evaluation
- Offer a flexible, adaptable System
- Foster wider adoption

# Youth Development Data Structure

- Client oriented and not just case oriented
- Multiple cases open at once
- Positive Youth Development Data
- Track family, personal relationships
- Long term youth database

# Youth-Centered data model

YAP Data Structure rev 6/12/09

# Team Collaboration

---

- Client represented by team
- Legal “run sheet” generalized to officewide activities log and calendar
- Document Repository
- Use of categories and tags to support collaboration

# Multidisciplinary Team Approach

# Client and Team Centered

# Supporting Research

---

- Researchers equal part of design team
- From demographics to PYD data collection
- Use of categories, sub-categories to facilitate complex data collection

# Using the calendar...

TRIS-Client Selection basic layout Runsheet

If let Ho

# Foster adoption

---

- Build multiple “office” concept into clients, staff
- Embed Youth Development model...
- ...leave details to customization and configuration
- Code base sharable
- Compartmentalize Comm of Mass specific features
- Either open source of social entrepreneurial model

# What should be shared.

- Open Source Code
- Application Programming Interfaces (API)
- Shared categories and templates
- Share news feed
- Shared aggregate data
- Social enterprise
